

UNITED STATES PATENT OFFICE.

GEORGE PERRY HILTON, OF GLENDALE, SOUTH CAROLINA.

REMEDY FOR LIVER AND KIDNEY DISEASES.

SPECIFICATION forming part of Letters Patent No. 310,427, dated January 6, 1885.

Application filed June 30, 1883. (No specimens.)

To all whom it may concern:

Be it known that I, G. P. HILTON, a citizen of the United States, residing at Glendale, in the county of Spartanburg and State of South Carolina, have invented certain new and useful Improvements in Medical Compounds; and I do declare the following to be a full, clear, and exact description of the invention, such as will enable others skilled in the art to which it ap-
10 pertains to make and use the same.

This invention has relation to medicinal compounds for the benefit of persons who are troubled with weakness of the liver or kidneys; and it consists in a combination of ingredients in the proportions and manner here-
15 inafter set forth.

In preparing this medicine I boil in five and one-half gallons of water for five or ten minutes five pounds senna-leaves, one-half pound
20 dandelion-root in coarse powder, two and one-half ounces mandrake-root in coarse powder, remove this from the fire and add one and three-quarters pound buchu-leaves, and let the mixture stand one hour. Then express the liquid,
25 which will amount to about thirty-four pints, and in this dissolve two ounces bicarbonate of

soda or bicarbonate of potash, after which add six pints of alcohol or twelve pints of whisky. If the latter, six pints less of water is used in the boiling. Finally, add two ounces tincture
30 of ginger, and the whole having been thoroughly mixed is allowed to stand ten or twelve days to settle. The clear liquid is then drawn off for use.

The medicine is to be taken internally, as
35 follows: Adult dose, a tea-spoonful after each meal, or more, if necessary to produce one operation of the bowels each day. Children according to age.

I claim—

The medicine compounded of senna-leaves,
40 dandelion and mandrake roots, buchu-leaves, bicarbonate of soda, whisky, and tincture of ginger, in the proportions substantially as specified.

In testimony whereof I affix my signature in
45 presence of two witnesses.

GEORGE PERRY HILTON.

Witnesses:

C. H. CARLISLE,
W. G. SMITH.
